

### Network Profile

Network Name: The Arc Tennessee Coordinated Services Collaborative (for now)

**Network Structure Type (e.g.: informal coalition or more formal structure such as MSO, LLC, signed MOU agreement, etc.):**

At this time, the network structure is fairly informal as we are very new. As we move forward in this process, it is likely that it will become more structured, potentially with MOUs and/or subcontracts between The Arc Tennessee as the primary contractor with the MCOs and the network partners providing the services.

**Contract Prospects (e.g.: names of potential integrated care entities- health plan, hospital, ACO, MCO, etc.- you are targeting for contracts):**

United Healthcare  
Blue Cross Blue Shield  
Amerigroup

**Potential Target Population (e.g.: dual eligibles, duals with multiple chronic conditions, EBP targets, high risk, etc.):**

The primary target populations are people who are aging with dementia and/or people with intellectual and developmental disabilities (IDD) who are aging. After the initial phone conference with our TA advisor, however, we will likely expand to all IDD and dual eligibles.

**Potential Service(s) and/or Service Package (e.g. types of services you will sell to contract prospects- person-centered planning, care and transitions management, evidence-based programs, etc. ):**

Person centered planning  
Family education  
Evidence based programs around dementia care  
Care and transitions management  
Personal Assistance  
Residential supports  
Employment supports  
Habilitation supports

**Collaborative Partners (i.e. a list of all of the partnering organizations in your network, only need organization name):**

The Arc Davidson County  
The Arc Williamson County  
Buffalo River Services  
The Arc Hamilton County  
Alzheimer’s Association Mid-South Chapter  
Mid-TN Support Living

**Site Lead:**
