

# Housing and Services Partnership Accelerator

## Cross-sector Partnership Assessment

**DUE DECEMBER 20, 2024**

This cross-sector partnership assessment is a required part of your HSPA application. Your responses using this form will help the HSPA application reviewers understand your existing partnerships with core team members at the state and local level and provide context for the technical assistance needs in your main application. The form has two parts.

### Part I: Core Information

*Instructions: Please fill in the following information so that we can link this form to your application and learn which team members were involved in the assessment process.*

State

---

Team Members Involved  
in Assessing

- 
- 
- 

---

### Part II: Sector-Specific Assessment

*Instructions: Please use the assessment table below to assign a status level regarding the involvement of each type of sector organization. Your state's unique HSPA goals and context should influence how you interpret each area of involvement. The table asks about involvement in three areas:*

What is the status of \_\_\_\_\_ [sector organization] involvement:

- A. Overall, in your state's efforts to plan and implement housing-related services and supports under your Medicaid programs and align/coordinate those housing supports with other health and social care services?
- B. In mapping workflow processes to allow the partnership to deliver services effectively and efficiently in a coordinated fashion.
- C. In data interoperability planning and implementation?

*The following scale should be used in each of the level of involvement columns.*

*Scale for Involvement Status Level*

*1—No involvement*

*2—Plan to involve*

*3—Light involvement*

*4—Moderate involvement*

*5—Sustained or extensive involvement*

*N/A—not applicable*

Finally, use the right column for relevant notes about involvement to date, strengths, and opportunities to expand/enhance.

Sector Organizations	Overall Involvement	Mapping Workflow Processes	Data Interoperability	Notes Participation to date? Strengths? Opportunities?
Status Level of Involvement (1-5 or N/A)				
<b>DISABILITY &amp; AGING</b>				
State unit on aging (SUA)				
State disability agency				
State No Wrong Door (NWD) System				
State Money Follows the Person (MFP) demonstration				
Aging and disability resource centers (ADRCs)				
Area agencies on aging (AAAs)				
Assistive technology programs (AT)				
State Independent Living Councils (SILCs)/Centers for independent living (CILs)				
State protection and advocacy systems				
Local disability organizations				

Sector Organizations	Overall Involvement	Mapping Workflow Processes	Data Interoperability	Notes Participation to date? Strengths? Opportunities?
Status Level of Involvement (1-5 or N/A)				
Local aging organizations				
State councils on developmental disabilities				
University Centers for Excellence in Developmental Disabilities				
<b>HEALTH</b>				
Single state agency for substance abuse services				
State mental health agency				
Behavioral health providers				
Certified community behavioral health clinics (CCBHCs)				
Federally qualified health centers (FQHCs)				
Hospitals and health systems				
Associations (e.g. state hospital associations)				
Managed care Organizations (MCOs)				

Sector Organizations	Overall Involvement	Mapping Workflow Processes	Data Interoperability	Notes Participation to date? Strengths? Opportunities?
Status Level of Involvement (1-5 or N/A)				
Public health agencies (specify state, local, or both)				
<b>COMMUNITY CARE HUBS</b> (definition below)				
<b>HOUSING/HOMELESSNESS</b>				
State housing finance agency (HFA)				
Continuum of Care (CoCs) programs				
Homeless assistance programs (HAP) or homeless services providers				
Multifamily affordable housing owners, operators and/or developers				
Municipal and county government agencies				
Public housing agencies (PHAs)				

NOTE: A community care hub is a community-focused entity that organizes and supports a network of CBOs providing services to address health-related social needs. It centralizes administrative functions and operational infrastructure including, but not limited to, contracting with health care organizations, payment operations, management of referrals, service delivery fidelity and compliance, technology, information security, data collection, and reporting. A hub may have CBOs from one or more sectors.
