

## Outcome Evaluation of the Long-Term Care Ombudsman Program (LTCOP)

### RESIDENT / FAMILY MEMBERS FOCUS GROUP GUIDE

---

#### Introductory Script

Hello, my name is \_\_\_\_\_. I am a researcher from NORC at the University of Chicago, located in Bethesda, MD. Thank you for taking the time to participate in this group discussion.  
*[Introduce colleague—second site visitor.]*

We are here today because the Administration for Community Living/Administration on Aging (ACL/AoA) has contracted with NORC and our partners to conduct an evaluation of the Long-Term Care Ombudsman program. As part of the study, we are interested in learning about resident's and their representative's experience with and perspectives on the program. We are especially interested in how you heard about the program, your interactions with your ombudsman and your perceptions of the program's effectiveness. These focus groups will provide important information on how the program is implemented at the facility-level.

I want to remind you that your participation in the group discussion is **voluntary**. You can refuse to answer any question that you do not wish to answer. This session will last about an hour and fifteen minutes and is a discussion, not a survey, so feel free to respond to what others are saying.

We ask everyone here today to respect each other's **privacy**. What is said in this room should stay in this room. A summary of this discussion and other discussions conducted at other facilities will be included in a report to the Administration for Community Living, but the individual information you give us will be kept entirely private. We will use only first names in today's discussion and we will not tell program staff what you say. The information that you tell us will not affect your relationship with the program in any way.

We value the information you will share with us today and want to make sure we capture all of it. Therefore, we will record the session, and *[name of person]* will take notes on a laptop. We will delete the recording as soon as we have made complete notes of the meeting, and those notes will **not** use your names. Do I have your permission to record this discussion?

Do you have any questions or concerns about what we plan to do?

#### **PAUSE AND ADDRESS ANY QUESTIONS**

Discussion groups like this may be new to some or all of you—so let me make a few general points about what to expect. As the facilitator, I will ask questions and moderate the conversation. It's important for all of you to speak up and participate so we can have an informative discussion. This will be informal; there are no right or wrong answers to the questions we ask. We are interested in learning each of your opinions. In the past, most people have told us they enjoy these discussion groups because it gives them a chance to share their experiences and hear about others' experiences.

We will talk for about an hour and fifteen minutes and at the end of the discussion, there is a very brief background information form for each of you to complete.

We very much appreciate your willingness to come today and share your thoughts about the Ombudsman Program. Are there any questions before we get started?

*To start, ask, "Does everyone know each other?" And then go around the room with first name introductions.*
