# ACL Resources Older Adult Behavioral Health

All resources mentioned in these slides are available for download at the <u>ACL Behavioral Health Webpage</u>

### New Issue Brief

- <u>The Opioid Public Health Emergency and Older</u> <u>Adults</u>
  - Older adults are affected by the opioid public health emergency because they often use prescription opioids to cope with painful chronic conditions or procedures.
  - This issue briefing provides a summary about the problem, treatments, federal strategies to address the crisis, and funding and programs that are addressing this issue.
  - The briefing also highlights innovative programs to address the opioid public health emergency in Arizona, Colorado, Nevada, and New Hampshire.

## ADRC/No Wrong Door Systems Behavioral Health Training

- Resource Guides
  - <u>Guide #1</u>
  - <u>Guide #2</u>

#### **State Behavioral Health Profiles**
