1.2 Objectives

1.2B Describe the steps planned regarding outreach to populations in the State that are unserved or underserved by programs under title VII, including minority groups and urban and rural populations.

- Identify the populations to be designated for targeted outreach efforts

Statewide, the Illinois SILC has chosen in the SPIL to focus on areas which will improve the quality of life for people with disabilities; specifically in the areas of employment, health care, housing, transportation, and CIL capacity development. The SILC also focused on developing the capacity of all CILs in Illinois which will enhance their ability to serve underserved and unserved populations. ? Jobseekers with disabilities needing employment opportunities (Employment Goal: Objectives #1, #2 and #3) ? Individuals with disabilities experiencing physical and communication barriers to medical services (Informed Policy Makers Goal: Objective #4 and #5) ? People with disabilities searching for accessible, affordable housing (Housing Goal: Objectives #1 and #2) ? Individuals with disabilities facing challenges accessing public transportation and paratransit services (Transportation Goal: Objective #1, #3 and #4) ? CILs increased capacity to provide services and resources ? Independent Living Network Capacity Development: Objectives #1, #2 and #3. Locally, each CIL annually assesses their service areas and identifies the populations that are significantly underserved or unserved, including minority groups and urban/rural populations. Census data along with service statistics from the 704 reports are utilized. From this analysis, each CIL develops a plan that contains objectives, activities and measurable outcomes to address these identified populations. More information for each CIL is located in Appendix A. Census data related to disability and percentage served is located in Appendix B. Census data related to race and percentage served is located in Appendix C.

- Identify the geographic areas (i.e., communities) in which the targeted populations reside

As mentioned earlier, each CIL identifies their unserved and underserved populations within their service area based on census data, service data and other community demographic

information and develops a plan accordingly. Statewide and Center specific information can be found in Appendix A and B.

- Describe how the needs of individuals with significant disabilities from minority group backgrounds will be addressed

It is a priority of all Illinois CILs to ensure that individuals with a diversity of disabilities and individuals who are members of minority populations and urban/rural populations that are unserved or underserved have access to the services and resources offered by Centers. This is addressed locally as well as on a state level through the SILC and INCIL, the state association.

While an intentional plan for services delivery is a must, quality, collaborative relationships with all community stakeholders are critical to positively impact the disability community in Illinois. Developing social capital is necessary for effective outreach within the target communities, both geographic and cultural. Effective outreach strategies include: having staff who are members of the target populations; developing linkages and membership in related organizations and groups; making presentations to churches, organizations, civic groups and key community members; recruiting individuals from target populations to serve on the CILs' Boards of Directors; working with county officials, disability organizations and other local contacts, and participating with local multi-cultural community events. The ultimate outcome is to increase the awareness and education of the independent living movement and local Centers and the availability of services and resources. We want Centers to be a place where all people with disabilities feel welcome.

1.3 Financial Plan

Describe in sections 1.3A and 1.3B, below, the financial plan for the use of Federal and non-Federal funds to meet the SPIL objectives.

1.3A Financial Plan Tables

Complete the financial plan tables covering years 1, 2 and 3 of this SPIL. For each funding source, provide estimated dollar amounts anticipated for the applicable uses. The financial plan table should include only those funding sources and amounts that are intended to support one or more of the objectives identified in section 1.2 of the SPIL. To the extent possible, the tables and narratives must reflect the applicable financial information from centers for independent living. Refer to the SPIL Instructions for additional information about completing the financial tables and narratives.

1.3B Financial Plan Narratives

1.3B(1) Specify how the part B, part C and chapter 2 (Older Blind) funds, if applicable, will further the SPIL objectives.

Funding under Title VII, Part B (\$167,893) and Federal Funds, Social Security Reimbursements (\$16,032) provide for the operation of the SILC (resource plan) in accordance with Federal statutory duties.

Title VII Part B (\$456,742), Title VII Part C (\$2,521,784), Federal Funds, Social Security Reimbursements (\$963,584) and Non-Federal state funds (\$4,296,500) fund general CIL operations.

A Federal Title VII Part B Capacity Development grant (\$44,798) from the DSE to INCIL and in-kind support of Lead Organizations are solely utilized to implement the objectives of the SPIL. See 1.3B (3) for examples of Lead Organizations. Under the SPIL, objectives and activities in the areas of housing, transportation, employment, independent living network capacity and informed policy makers will be addressed. These funds will be utilized to purchase the services of consultants, provide interpreter and CART services, reimburse for travel, meals, room rentals, and pay for printing and postage costs.

1.3B(2) Describe efforts to coordinate Federal and State funding for centers and IL services, including the amounts, sources and purposes of the funding to be coordinated.

There are 22 CILs in Illinois and the funding comes from state and federal funding. Federal funding comes from Title VII, Part B, Part C and Social Security Reimbursements. State funding for CILs comes from state general revenue and is provided through the Department of Human Services. These funds are designated for CIL operation and delivery of independent living services. No specific amount is coordinated for a specific purpose. The Department of Human Services is responsible to acquire, process and distribute these federal funds. A representative of the Department of Human Services is an ex-officio member of the SILC. The Executive Director of the SILC meets periodically with DHS staff to discuss issues relevant to the SILC and the CILs, including coordination of activities with the SPIL.

Each CIL in Illinois currently offers the four core services and most provide additional independent living services beyond the four core services, although this does vary from CIL to CIL. As a result of WIOA, there is now a fifth core service: “(i) facilitate the transition of individuals with significant disabilities from nursing homes and other institutions to home and community-based residences, with requisite supports and services; (ii) provide assistance to individuals with significant disabilities who are at risk of entering institutions so that the individuals may remain in the community; and (iii) facilitate the transition of youth with significant disabilities, who were eligible for Individualized Education Plans and have completed their secondary education or otherwise left school, to postsecondary life.” While deemed extremely important by CILs, there is grave concern around the ability to effectively provide this service without additional funding. This is especially challenging since Illinois still does not have a State budget in place and CILs have not received any state funds since July 1, 2015.

Illinois CILs utilize the same reporting mechanism, the 704 Report, for both state and federal funding sources. INCIL acts as a strong network for the 22 CILs in Illinois and shares training, staff expertise and legislative advocacy. The Executive Director of SILC regularly communicates with the INCIL Executive Director to engage in joint planning and coordination of efforts. The Executive Director of the SILC also attends INCIL Board meetings and provides an update on

SILC activities to the CILs. The INCIL Executive Director also attends the SILC Board Meetings and provides an update on INCIL activities to the SILC. CILs receive SILC Board meeting minutes to keep them fully informed as to the actions and decisions of the SILC. Additionally, there is a designated INCIL representative that sits on SILC who is approved by the majority of CIL directors.

1.3B(3) Describe any in-kind resources including plant, equipment or services to be provided in support of the SILC resource plan, IL services, general CIL operations and/or other SPIL objectives.

The SILC has created Advisory Groups and utilizes lead organizations for each activity in the SPIL's Goal Areas to take advantage of the expertise of other organizations in order to implement the SPIL. A list of Advisory Group members can be found at www.silcofillinois.org. Lead organizations such as Illinois Assistive Technology Program, City of Chicago: Mayor's office for People with Disabilities, Equip for Equality, Illinois Department of Human Rights, Illinois Institute for Rural Affairs, Housing Action Illinois, WKG Advisory, Great Lakes ADA Center, Illinois Department of Public Health, INCIL and many of the CILs will be lending their expertise and other in-kind resources toward completing specific SPIL goals and objectives with additional financial support from the INCIL Capacity Development Grant. The SILC has reached out to state government departments, statewide advocacy organizations, state providers' associations, and other disability stakeholders to participate on the Advisory Groups and to act as lead organizations for the objectives within the SPIL.

1.3B(4) Provide any additional information about the financial plan, as appropriate.

N/A

1.4 Compatibility with Chapter 1 of Title VII and the CIL Work Plans

1.4A Describe how the SPIL objectives are consistent with and further the purpose of chapter 1 of title VII of the Act as stated in section 701 of the Act and 34 CFR 364.2.

The objectives of the SPIL are designed to support CILs in their efforts to provide the five core independent living services which are spelled out in the Rehabilitation Act under Title VII and the Workforce Innovation and Opportunities Act. As mentioned earlier, the SILC has major concerns as to the CILs ability to provide the new, fifth core service without additional funding.

1.4B Describe how, in developing the SPIL objectives, the DSU and the SILC considered and incorporated, where appropriate, the priorities and objectives established by centers for independent living under section 725(c)(4) of the Act.

As a result of WIOA, the development of the SPIL was a collaboration between the SILC and all Illinois CILs. There was representation from the CILs on all Advisory Groups. The Independent Living Network Design Workgroup and SPIL Drafting Committee were comprised of equal numbers of CIL and SILC members. Additionally, all CILs were given regular opportunities for input and had "real-time" access to all SPIL development meeting minutes and draft documents.

When it came to areas that specifically impacted the CILs, such as funding priorities, the SILC asked for a collective recommendation from CILs through INCIL. The DSE representative is a non-voting SILC member and a member of the employment advisory group so the DSE had opportunity to provide input as well.

1.5 Cooperation, Coordination, and Working Relationships Among Various Entities

Describe the steps that will be taken to maximize the cooperation, coordination and working relationships among the SILS program, the SILC, and centers; the DSU, other State agencies represented on the SILC and other councils that address the needs of specific disability populations and issues; and other public and private entities determined to be appropriate by the SILC.

The description must identify the entities with which the DSU and the SILC will cooperate and coordinate.

The State of Illinois takes steps that maximize the communication, cooperation, coordination, and working relationships among

(1) the SILS program, the SILC and CILs; and

(2) the DSE, other State agencies represented on the SILC, other councils that address the needs of specific disability populations and issues, and other public and private entities, including Indian Tribal Councils, determined to be appropriate by the SILC.

The State ensures that services funded under Chapter 1 will complement and be coordinated with other services to avoid unnecessary duplication with other Federal, State, and local programs, including the IL program for older individuals who are blind funded under Chapter 2 of Title VII.

The State coordinates Federal and State funding for CILs and SILS.

In addition, as noted above in Section 1.3(b) 3, the SILC has gone to great lengths to recruit statewide disability stakeholders to implement the objectives of the SPIL. The SILC has created Advisory Groups for each Goal Area in order to utilize the expertise of other organizations in order to implement the SPIL. A list of Advisory Group members can be found at

www.silcofillinois.org. The SILC has reached out to state departments of government, statewide advocacy organizations, state providers associations and other disability stakeholders to participate on the Advisory Groups and to act as lead organizations for the objectives within the SPIL. Examples of such organizations/stakeholders are: Illinois Assistive Technology Program, City of Chicago: Mayor's office for People with Disabilities, Equip for Equality, Illinois Department of Human Rights, Illinois Institute for Rural Affairs, WKG Advisory, Great Lakes ADA Center, Illinois Department of Public Health, INCIL and all Centers. The lead organization and other participating agencies provide in-kind staff time to implement the objectives.

INCIL acts as the fiscal agent for the Capacity Development Grant is in the amount of \$44,798 to implement the SPIL. Objectives and activities in the areas of independent living network capacity, employment, housing, transportation and informed policy makers will be addressed. The SILC looks forward to its expanded role as a result of the passage of WIOA.

1.6 Coordination of Services

Describe how IL services funded under chapter 1 of title VII of the Act will be coordinated with and complement other services to avoid unnecessary duplication with other Federal, State, and local programs, including the OIB program authorized by chapter 2 of title VII of the Act, that provide IL- or VR-related services.

Ex Officio Members of the SILC facilitate communication and coordination among their departments and divisions and the independent living network. For example:

- The Illinois State Board of Education promotes communication between special education entities through the Division of Special Education and local school districts.
- The Illinois Department of Human Services, Division of Rehabilitation Services coordinates information and activities between Vocational Rehabilitation entities as well as the OIB program.
- The Department of Children and Family Services acts as link on children's issues and the child welfare system.
- The Department on Aging acts as a liaison between the aging and disability communities.
- The IDHS, Division of Development Disabilities acts as a link on issues impacting people with intellectual and developmental disabilities.

Additionally, the SILC, INCIL and CILs provide representation on a wide variety of committees and workgroups throughout Illinois to ensure people with disabilities have access to quality, consumer controlled services resources.

The 22 CILs receive referrals from a wide variety of local partners. Core independent living services, in particular, or any other consumer controlled services, are generally unavailable from any other service providers. The unique configuration of each CILs services beyond core services is based on unmet local need. Documentation of efforts of coordination and establishing working relationships is required as part of the DSE's evaluation of CILs.

In addition to the SILC's ongoing relationships with the DSE, INCIL, the 22 CILs, and the various departments of state government, the SILC has developed on-going collaborative relationships with numerous disability related groups, statewide associations and organizations of persons with disabilities.

1.7 Independent Living Services for Individuals who are Older Blind

Describe how the DSU seeks to incorporate into, and describe in, the State plan any new methods or approaches for the provision of IL services to older individuals who are blind that are developed under the Older Individuals who are Blind program and that the DSU determines to be effective.

In addition to CILs being funded with State GRF, Title VII, Part B and Part C funds, several CILs receive Title I, Chapter 2 funds for independent living services to older individuals who are blind.

Eight CILs receive Title VII, Chapter 2: Independent Living for Older Individuals who are Blind (ILOIB) funding to provide comprehensive services which includes: planning, training, technical assistance, outreach, demonstrations, presentations, community awareness, and community collaboration to enhance services to a largely underserved population of individuals with disabilities. These CILs are: Illinois/Iowa CIL, IMPACT CIL, Jacksonville Area CIL, Lake County CIL, LIFE, OPTIONS, PACE, SAIL and Southern Illinois CIL. These CILs also have the opportunity to purchase equipment with Chapter 2 funds. This equipment may be housed at the CIL for demonstrations of available products to older individuals with visual impairments, or may be purchased for distribution to individuals with visual impairments to keep and use in their apartment or home.

2.1B Describe any service provision priorities, including types of services or populations, established for meeting the SPIL objectives identified in section 1.2.

The service provision priorities; types of services provided and the populations served are determined by the advisory and stakeholder groups along with the led organizations for each objective and activity. In developing the SPIL objectives, discussions were had and decisions made on these issues. Refer to the SPIL objectives for further information.

2.1C If the State allows service providers to charge consumers for the cost of services or to consider the ability of individual consumers to pay for the cost of IL services, specify the types of IL services for which costs may be charged and for which a financial need test may be applied, and describe how the State will ensure that:

- Any consideration of financial need is applied uniformly so that all individuals who are eligible for IL services are treated equally; and
- Written policies and consumer documentation required by 34 CFR 364.59(d) will be kept by the service provider.

Indicate N/A if not applicable.

N/A

2.2 Arrangements for State-Provided Services

2.2A If the DSU will provide any of the IL services identified in section 2.1A through grants or contractual arrangements with third parties, describe such arrangements.

The DSE enters into contracts with the 22 CILs in Illinois to provide IL services. Each currently provides four core IL services, soon to be increased to five. In addition to the five core services, each Center provides services that are deemed necessary to individuals in their catchment area.

Regular Title VII Part B funds are provided contractually to CILs in the amount of \$456,742 and to SILC in the amount of \$167,893.

2.2B If the State contracts with or awards a grant to a center for the general operation of the center, describe how the State will ensure that the determination of an individual's eligibility for services from that center shall be delegated to the center.

Centers for Independent Living are independent contractors in the State of Illinois. The DSE has oversight authority regarding contract compliance. However, the CILs act independently when making determinations regarding eligibility for services. In order to receive state general revenue funds, CILs in Illinois must meet state guidelines (which mirror federal guidelines) for provision of IL services.

Part II: Narrative: Section 3 - Design for the Statewide Network of Centers

3.1 Existing Network

Provide an overview of the existing network of centers, including non-Part C-funded centers that comply with the standards and assurances in section 725 (b) and (c) of the Act, and the geographic areas and populations currently served by the centers.

The Illinois Network of Centers for Independent Living includes as its members all 22 CILs (20 Part C CILs and 2 non-Part C CILs) located throughout Illinois. Note: ACL recognizes 26 centers. Three of the above CILs have multiple contracts. The CILs cover the major metropolitan area of Chicago, suburban area around Chicago, and other mid-sized cities and rural areas. The Network consists of a board of directors made up by the Executive Directors of each CIL. The Network has hired an Executive Director to oversee the day to day operations of the Network. 3.2 Expansion of Network

Describe the design for the further expansion of the network, including identification of the unserved and underserved areas in the State and the order of priority for serving these areas as additional funding becomes available (beyond the required cost-of-living increase).

As used in this section 3.2, the term ‘unserved’ means an area not within the service area of any CIL, whether established with Part B or Part C funds. The term ‘underserved’ means an area not within the service area of any CIL established with Part C funds.

PRIORITY 1

The first priority, should additional Part C funding become available, is to expand and strengthen the network by correcting funding reductions that occurred following the one-time ARRA funding in Illinois which significantly reduced the ability of affected CILs to provide core services. Therefore, the first Part C funding received (until the maximum of \$465,863.00 is reached) will be distributed to the following CILs using the percentages below:

Access Living of Metropolitan Chicago: 29.0512% Distribute between Access Living’s two center grants as follows: **100% to PR/Award 90IL0118 **0% to PR/Award 90IL0304 Illinois-Iowa Center for Independent Living: 16.5064% 100% to PR/Award 90IL010602 Lake County Center for Independent Living: 13.8086% 100% to PR/Award 90IL0103 Regional Access & Mobilization Project (RAMP): 8.3810% Distribute between RAMP’s two center grants as follows: **92.21% to PR/Award 90IL0104-02 **7.79% to PR/Award 90IL0294-02 Soyland Access for Independent Living (SAIL): 8.8116% Distribute among SAIL’s three center grants as follows: **0% to PR/Award 90IL0306-02-00 **36% to PR/Award 90IL0232-02-00 **64% to PR/Award 90IL0030-02-00 Stone-Hayes Center for Independent Living: 10.2476% 100% to PR/Award 90IL0283 Will-Grundy Center for Independent Living: 13.1936% 100% to PR/Award 90IL0102

PRIORITY 2

The second priority is a step toward the goal of strengthening the current network of CILs. INCIL and the SILC have designated that the eligible areas listed below be given priority to further expand and strengthen the network after Priority 1 is accomplished. A competitive grant process will be conducted for each \$25,000 (neither more nor less) that is available, to establish up to two new Part C CILs. The following areas, each in their entirety, are eligible to participate in this competition and will have equal priority. The eligible applicant(s) with the highest score(s) will be awarded the Part C funds as specified above.

PRIORITY 3

The third priority is activated after Priority 1 has been accomplished and if there are funds remaining after the awarding of possible new CILs in Priority 2.

Therefore, remaining funds shall be distributed among CILs serving ACL-recognized Part C counties in percentages consistent with the INCIL-adopted formula in order to strengthen the network of CILs in Illinois. However, no CIL may receive an amount that results in its exceeding the INCIL-adopted formula until all CILs are fully funded according to that formula.

Note: To date, the INCIL-adopted funding formula has not been developed or approved. The formula will be provided to ACL upon adoption.

PRIORITY 5

After all previous priorities are met and in the event that additional Title VII Part C funds become available in an amount of \$120,000, the goal of expanding the network of CILs will be addressed. OTHER PROVISIONS

Limit on Eligibility for Funding:

Any Center may allocate (or apply) for additional Title VII Part C funding that meets the above priorities. However, no center may receive an amount that results in its exceeding the INCIL-adopted percentages (once adopted) until all CILs are fully funded according to the INCIL adopted formula funding criteria. Any funding after Priority 1 is accomplished will be distributed among Part C Centers in percentages consistent with the INCIL adopted formula funding criteria.

One Time Funding:

In the event there are one-time Title VII Part C funds available during the life of this SPIL, those funds will not be included by ACL for calculating the amounts of regular, continuing Part C grants. Those funds will be divided by the percentages in the INCIL-approved formula among all affected CILs. In the event one-time Title VII Part C funds will be included by ACL for calculating next fiscal year's Part C grant amounts, those funds will be allocated proportionately to each existing CIL. One-time federal funds will not be considered sufficient for the establishment of a new CIL consistent with 34 C.F.R. § 366.22.

Part C Funds Relinquished or Terminated

If a Part C grant is relinquished or terminated, a new CIL in the relinquished grant service area will be established.
