1.2 Objectives

1.2B Describe the steps planned regarding outreach to populations in the State that are unserved or underserved by programs under title VII, including minority groups and urban and rural populations.

- Identify the populations to be designated for targeted outreach efforts

There are well over 875,000 Kentuckians who self identify as having a disability in Kentucky. Due to these sheer numbers, the reality is that all disability groups within Kentucky are underserved and many are un-served depending on geographical location. The limited number of CILs and the limited amount of resources creates an extremely difficult challenge when attempting to serve as many individuals as possible in the most efficient and effective manner. The KYSILC plans to focus efforts during this state plan cycle on developing an expanded network of Centers for Independent Living. Due to limited resources some Centers may only operate limited hours but individuals would also have access to information via the Aging Disability Resource Centers.

- Identify the geographic areas (i.e., communities) in which the targeted populations reside

Centers will be located in key areas with primary focus on areas with high percentages of individuals who are disabled, living in poverty in isolated regions of the state and who have poor health status. The largest area of individuals living in poverty, with both poor health status and who self-identify as disabled, is centered in the Kentucky River region of Southeastern Kentucky. All eight of the counties in that region are ranked in the bottom 10 % of the 120 counties within the Commonwealth. Unfortunately, the current independent living network does not have a Center for Independent Living in this area creating a significant un-served area. The SILC, CILs and DSE will work together to secure funding to expand services to this grossly unserved area. In addition, the current CILs will continue to provide the five core services in their designated areas. Specific outreach to minorities will include the provision of educational materials to churches, community based services and family resource centers located in each of the school districts.

- Describe how the needs of individuals with significant disabilities from minority group backgrounds will be addressed

The largest percentage of individuals who are minority and disabled per county population is also located in eastern Kentucky.

The Kentucky SILC, in collaboration and conjunction with the DSE, Kentucky Office for the Blind, and CILs, has reviewed demographic data to identify and locate individuals with significant disabilities in the Commonwealth. Special attention was given to individuals who are members of racial or ethnic minorities, and those living in un-served geographic areas.

1.3 Financial Plan

To the extent possible, the tables and narratives must reflect the applicable financial information from centers for independent living. Refer to the SPIL Instructions for additional information about completing the financial tables and narratives.

Part B and Part C Funds

Independent Living services to individuals who are over 55 and blind or visually impaired will be provided by the Kentucky Office for the Blind with \$431,718 in annual funding.

1.3B(2) Describe efforts to coordinate Federal and State funding for centers and IL services, including the amounts, sources and purposes of the funding to be coordinated.

In December 2015, the SILC transferred from the Cabinet for Education and Workforce Development to the Department for Aging and Independent Living (DAIL). DAIL oversees several programs specifically geared toward independent living. The move allows the SILC and DAIL to align common standards to ensure independent living. Services provided by the CILs and the SILC are planned to be non-duplicative of the services of other programs. There is no formal agreement to coordinate federal and state funding for IL services, however, the coordination through DAIL will allow for a more streamlined effort to reduce duplication and create a more effective service delivery system.

State and federal funding for CIL's and IL services are coordinated by the SILC with support from the DSE and the agency providing services to Older Individuals who are Blind (OIB).

For the three years of this SPIL, Part B funding in the amount of \$272,296 plus an additional \$210,000 in new state general funds provided by DAIL will be designated for the continued operation and expansion of qualifying CILs.

The purpose of the CIL funds is to provide the five core independent living services to Kentuckians with disabilities, and to advance the ability of eligible severely disabled adults to live independently.

DAIL will also designate \$40,000 in new state general funds to the SILC to resurrect the Independent Living Conference and to provide additional training to the SILC and CILs by the ILRU and others. Staffing and operating for the SILC will be paid utilizing \$65,000 in Innovation and Resource funding.

Part C funds totaling \$907,179 will be divided as determined by ACL among the two Centers for Independent Living located in Louisville and the Hazard area.

The Center for Accessible Living manages the state funded Personal Care Attendant Program (PCAP) in five Area Development Districts. Funding for this program equates to over \$2.1 million for CAL. The total allocation of the entire program operated by DAIL is \$4.3 million.

During this plan cycle, the Center for Accessible Living will oversee the Hart Supported Living program which is a \$6.9 million dollar participant directed program for individuals with disabilities as defined under the Americans with Disabilities Act. Hart Supported Living is also a DAIL program.

1.3B(3) Describe any in-kind resources including plant, equipment or services to be provided in support of the SILC resource plan, IL services, general CIL operations and/or other SPIL objectives.

The DSE (DAIL) provides, as an in-kind service, any print materials needed by members of the SILC in alternate formats. These formats include, but are not limited to: Braille, CD, computer disk or audio tape.

DAIL also provides additional staffing, mailing, postage, website hosting, a telephone line, and meeting rooms. Other in-kind resources are offered to CILs depending upon need and availability.

1.3B(4) Provide any additional information about the financial plan, as appropriate.

N/A

1.4 Compatibility with Chapter 1 of Title VII and the CIL Work Plans

1.4A Describe how the SPIL objectives are consistent with and further the purpose of chapter 1 of title VII of the Act as stated in section 701 of the Act and 34 CFR 364.2.

The objectives of this SPIL are in accordance with, or compliment, the IL programs and services provided by the DSE and CILs. The SPIL objectives support statewide networks of Centers for

Independent Living including activities to improve working relationships among State Independent Living programs , CIL programs (Part B and C), and SILC; and expands the provision of IL services. The IL services offered by the Centers and DSE are consumer-driven and unduplicated; furthermore these services are consistent with the philosophy of the programs as defined in Section 701 and 713 of the Act.

The SPIL objectives provide for expansion and enhancement of the IL Network, by increasing awareness of IL services among stakeholders, exploring expansion to un-served geographic areas, and increasing the CILs capacity to provide benefits counseling.

The SPIL objectives improve the working relationships among Part B and Part C CILs, the SILC, the DSE, and other state and federal agencies by increasing the effectiveness of the SILC administration, sharing information within the IL network, increasing awareness of IL services among stakeholders, distributing marketing materials among stakeholders, and building partnerships between the IL network and outside entities.

Activities under the objective to share information within the IL network support statewide networks of Centers for Independent Living.

The SPIL objectives expand and improve the provision of IL services by exploring the feasibility of Asset Development, and Individual Development Account programs, forming new partnerships with appropriate entities, and targeting underserved and un-served populations.

The overall goal of the SPIL objectives is to promote a philosophy of consumer control, peer support, self-help, self-determination, equal access, and individual and system advocacy in order to maximize the leadership, empowerment, independence and productivity of Kentuckians with disabilities, and the integration and full inclusion of Kentuckians with disabilities in society.

1.4B Describe how, in developing the SPIL objectives, the DSU and the SILC considered and incorporated, where appropriate, the priorities and objectives established by centers for independent living under section 725(c)(4) of the Act.

The SPIL objectives were developed with involvement of SILC members, CIL Directors and staff, consumers and families, and stakeholders. The SPIL Ad Hoc Planning Committee was established, consisting of SILC members and representatives from the DSE and from the CILs. Using the data collected from the CIL monitoring reports, the 704 Reports, and various other reports the SPIL Ad Hoc Planning Committee determined the SPIL Goals, Objectives and Activities. That draft SPIL was presented to the full SILC at the spring meeting and approved for public input. The SPIL draft plan was then posted on the DSE and SILC websites and a public forum was conducted to invite public comment. Once the public input was gathered, the SPIL Ad Hoc Planning Committee reviewed the input and made appropriate revisions, the SPIL was presented and approved by full SILC at the summer SILC meeting.

1.5 Cooperation, Coordination, and Working Relationships Among Various Entities

Describe the steps that will be taken to maximize the cooperation, coordination and working relationships among the SILS program, the SILC, and centers; the DSU, other State agencies represented on the SILC and other councils that address the needs of specific disability populations and issues; and other public and private entities determined to be appropriate by the SILC.

The description must identify the entities with which the DSU and the SILC will cooperate and coordinate.

SILC representatives serve on the Statewide Council for Vocational Rehabilitation (SCVR) and the Statewide Rehabilitation Council for the Blind. The Office of Vocational Rehabilitation, the Office for the Blind and DAIL each have staff members who serve on the SILC. The CIL Directors elect, from among themselves, a representative to serve on the SILC. The CIL Directors group includes a liaison from the Department for Aging in Independent Living (DAIL). Opportunities are provided at each SILC meeting for these parties and other interested individuals to share information about upcoming events and activities.

The SILC will meet with numerous other Councils and Boards annually to coordinate activities and discuss common initiatives.

SILC members participate on a variety of councils, commissions and boards. Below is a listing of these entities. It is not intended to be a comprehensive list or to limit the participation of members on other entities not listed below.

Hart Supported Living Program

The ARC of KY

ADA Action Network

National Federation for the Blind

National Council on Independent Living

Emergency Preparedness Functional Needs Group

The SILC coordinator and individual SILC members are involved in the 874k Coalition. This coalition conducts an annual event to educate individuals with disabilities, their families and advocates how to work with the representatives and elected officials.

Information about rallies, legislative issues, conferences and newsletters are shared with SILC members, CIL Directors, OVR, DAIL and OFB staff through e-mail distribution lists and is posted on the SILC Facebook page. When consumers attend an event, many groups including the CILs, assist with arranging transportation, obtaining meals, and, if necessary, lodging. CIL staff serves on such local committees as the Chamber of Commerce, local transportation providers, and Area Development Districts among others.

The Kentucky Department for Aging and Independent Living (DAIL) oversees the administration of statewide programs and services on behalf of Kentucky's elders and individuals with disabilities. In partnership with Kentucky's Area Agencies on Aging and Independent Living, Community Mental Health Centers, Centers for Independent Living and other community partners, DAIL provides leadership and addresses issues and circumstances that stand in the way of elders and individuals with disabilities achieving the best possible quality of life. The Center for Accessible Living administers DAIL's Personal Care Attendant Program (PCAP) for several parts of the state and will oversee the Hart Supported Living program during this plan cycle. The SILC, CILs and DAIL continue to investigate other possibilities for collaboration to determine how to best harmonize the various programs each provides to maximize usage of resources.

1.6 Coordination of Services

Describe how IL services funded under chapter 1 of title VII of the Act will be coordinated with and complement other services to avoid unnecessary duplication with other Federal, State, and local programs, including the OIB program authorized by chapter 2 of title VII of the Act, that provide IL- or VR-related services.

Independent Living services funded under Chapter 1 of Title VII of the Act are coordinated by the Kentucky Independent Living Network which includes the SILC, CILs, the DSE and Office for the Blind (OFB). Representatives from the DSE, OFB, the CIL Directors, and the full SILC review and approve the Financial Plan in the SPIL. A representative from OFB serves on the SILC, and a SILC member represents the SILC on OFB's advisory board, further bolstering coordination. Because these entities both fund and provide IL services, services are coordinated to avoid unnecessary duplication with Federal, State, and local programs.

1.7 Independent Living Services for Individuals who are Older Blind

Describe how the DSU seeks to incorporate into, and describe in, the State plan any new methods or approaches for the provision of IL services to older individuals who are blind that are developed under the Older Individuals who are Blind program and that the DSU determines to be effective.

The Kentucky Office for the Blind (OFB) provides independent living services to persons age fifty-five years and older who are blind and visually impaired. Services are made available to persons living in every Kentucky County and include daily living skills training, information and referral and advocacy training. The Office for the Blind employs independent living (IL/OIB) counselors to coordinate services and provide direct training to these persons.

Independent Living services and training to older blind individuals includes but is not limited to the areas of daily living, communications, advocacy, orientation and mobility and community integration. The goal of services is to help persons function as independently as possible in their homes and communities and to assist persons wishing to transition to more independent living environments.

The IL/OIB Counselors provide direct training and may also coordinate instruction provided by Assistive Technology Specialists, Orientation and Mobility Specialists, and the OFB Deaf-Blind Services Coordinator. Most often persons receive independent living services/training in their homes, but when preferred by the individual, services can be provided in other locations such as OFB offices, the person's work site, or community sites like senior citizen centers. When appropriate, the IL/OIB Counselors arrange for individuals to receive additional training at the Charles W. McDowell Rehabilitation Center located in Louisville, KY. Services/training are provided to persons based on individual needs and can be completed on a one-on-one basis or in small group sessions. Individuals are given information about local, state, and national resources and helped with contacting those as needed. In addition, referrals are made to local Centers for Independent Living so that older blind individuals can have access to services that are not directly available from OFB.

Types of services given priority in the SPIL objectives include: outreach, independent living education, information and referral, independent living skills training, peer counseling, individual and systems advocacy, transition services and asset development education.

Specific populations established as service priorities include: people with disabilities in unserved geographic areas, people with disabilities who do not have internet access, individuals who are over 55 and blind, individuals who would benefit from asset building activities, any individual with a disability needing one or more of the five core services, and individuals who are deaf or hard of hearing.

- Any consideration of financial need is applied uniformly so that all individuals who are eligible for IL services are treated equally; and

2.2 Arrangements for State-Provided Services

2.2A If the DSU will provide any of the IL services identified in section 2.1A through grants or contractual arrangements with third parties, describe such arrangements.

A request for proposal is developed; proposals are reviewed and awarded based upon a scoring method. If approved and accepted, quarterly reports are submitted as instructed in the request for proposal. The request for proposal contains language for an annual review of services and customer satisfaction.

2.2B If the State contracts with or awards a grant to a center for the general operation of the center, describe how the State will ensure that the determination of an individual's eligibility for services from that center shall be delegated to the center.

The memorandum of agreement between the DSE and CILs contains language that delegates eligibility determination to the CILs. Each CIL is required to have programmatic policies in place which describe the eligibility criteria that an individual with a significant disability, as defined in 34 CFR 364.4(b), for CIL programs. The DSE will also conduct compliance reviews to determine whether the CILs comply with the language of the MOA and applicable federal laws and regulations.

Part II: Narrative: Section 3 - Design for the Statewide Network of Centers

3.1 Existing Network

Provide an overview of the existing network of centers, including non-Part C-funded centers that comply with the standards and assurances in section 725 (b) and (c) of the Act, and the geographic areas and populations currently served by the centers.

Kentucky is currently in a state of flux due to the recent closures of two centers, one operated by part C funds and one by part B funds.

Effective July 2016 the Disability Resource Initiative, located in Bowling Green, closed. The SILC intends to issue a new RFP to cover the counties served for this region. The counties include Allen, Barren, Butler, Edmonson, Hart, Logan, Metcalfe, Monroe, Simpson and Warren counties. The area is primarily rural with the exception of Warren County. The new CIL will be funded primarily with Part B funds and will meet section 725 standards and assurances.

The state is also hoping to replace the recent voluntary closure of a part C center located in Harlan, KY. A new grant application has been posted at the federal level.

Currently there are two Centers for Independent Living: Center for Accessible Living in Louisville, Independence Place in Lexington, and two satellite Centers for Independent Living: Center for Accessible Living Northern Kentucky, and the Center for Accessible Living in Murray.

Center for Accessible Living, Louisville ? The counties served are Bullitt, Henry, Jefferson, Oldham, Shelby, Spencer and Trimble counties. The area is urban and suburban with some rural areas. The Center for Accessible Living is supported with Part C funds.

Independence Place, Lexington ? The counties served are Anderson, Bourbon, Boyle, Clark, Estill, Fayette, Franklin, Garrard, Harrison, Jessamine, Lincoln, Madison, Mercer, Nicholas, Powell, Scott and Woodford counties. The area is a combination of urban, suburban, and rural areas. The center is supported with Part B funds, and meets section 725 standards and assurances.

Center for Accessible Living, Northern Kentucky ? The counties served are Boone, Campbell, and Kenton counties. This area is urban, suburban, and rural. This center is supported with Part B funds, and meets section 725 standards and assurances.

Center for Accessible Living, Murray ? The counties served are Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Marshall and McCracken counties. The area is very rural area. The Center for Accessible Living Murray is supported with Part C funds.

The Centers for Independent Living serve individuals with cognitive, mental/emotional, physical, hearing, vision and multiple disabilities.

3.2 Expansion of Network

Describe the design for the further expansion of the network, including identification of the unserved and underserved areas in the State and the order of priority for serving these areas as additional funding becomes available (beyond the required cost-of-living increase).

The KYSILC and the DSE are committed to expanding the statewide network of Centers to ensure the availability of independent living services to all Kentuckians with disabilities.

Designs for further expansion of the network include consideration of areas identified as unserved and underserved according to targeted areas of need and in accordance with the directives set forth in Section 723 of the Rehabilitation Act (34 CFR 366.22).

For any state accepting federal Title VII Parts B and C IL funds, the previously cited Federal laws and regulations specify the following priorities for the distribution of IL funds to existing Centers:

1. Upon the availability of part C funding, maintain eligible Centers? allocations at the same levels as the previous year;
2. Upon availability of part C funding, provide an annual cost-of-living increase to all eligible Centers;
3. Upon the availability of new Part C or Part B funding, develop new Centers.

State General Funds and Federal Title VII Part B and C IL funds shall continue to be awarded to eligible Centers meeting the standards and assurances established in Section 725 of the Rehabilitation Act, the requirements of the SILC to receive allocations as a CIL and as identified in the SPIL and the contractual requirements between the CIL and DSE.

Minimal Funding:

The SILC has identified a range of \$80,000 to \$100,000 to be considered the minimum threshold amount of funding needed to open a new non-storefront CIL under the umbrella of an existing CIL or agency and \$160,000 to open a new storefront independent CIL. This amount was determined after much discussion among the SPIL committee members and based on public comment. This amount reflects the minimum cost of staffing, applicable taxes and insurance, rental of office space, accommodations, travel, and other costs associated with opening a CIL.

Funding Eligibility:

Federal and state funds shall be awarded to eligible CILs or to other entities to meet the goals of the SILC if the following criteria have been met during the previous FY (if applicable) and at the time of allocation.

- 1) The CIL meets all of the standards and assurances established in Section 725 of the Rehabilitation Act,
- 2) The CIL or eligible entity meets the requirements as determined by the SILC and listed in the current SPIL; and
- 3) The CIL or eligible entity meets the contractual requirements between the CIL and DSE.

SILC Requirements:

Prior to award of federal or state funding a potential CIL or other eligible entity must provide to the SILC the following documentation:

1. Proof of 501 (c) 3 status
2. Name, position and address of current board members
3. Line item budget for requested funding
4. Staffing plan
5. Operational plan to meet the deliverables and/or five core services
6. Agency SOPs including personnel and financial management policies.

The CIL or other eligible entity funded by the SILC shall be responsible to provide an updated board list at each regularly scheduled fall meeting of the SILC.

Changes to the staffing plan, budget or operational plan must be prior approved by the board of directors of the CIL or other funded entity and presented to the SILC for approval. The DSE, upon direction of the SILC, will modify contracts based on approved changes. Changes to operational, staffing or contractual deliverables cannot be implemented without prior SILC approval.

The CIL shall provide to the SILC an independent audit of the agency no later than January 30th following the end of the previous FFY.

Allocation Priorities

Existing Part C CILs that meet eligibility requirements shall be maintained at levels that meet at a minimum the current level of funding and a COLA, if possible.

If new one-time Part C funds in any amount become available, the SILC shall support any existing Part B Center until the Center reaches a maximum allocation ranging from \$160,000 to \$200,000. Funding is determined by the SILC based upon the geographical area and population.

If new on-going state, Part B or Part C funds totaling at least \$100,000 becomes available and each current CIL is already funded to at least \$160,000, the SILC shall develop a Request for Proposal (RFP) to start a new Center. In order to facilitate the development of proposals, the DSE may provide technical assistance to any CIL or eligible entity requesting such. In the event that a proposal is accepted and funds are awarded, funds will be dispersed according to the terms of the proposal, and the recipient agreement.

In the case of a Part C grant being relinquished or terminated, it is the desire of the state that a competition be held so that a new Center for Independent Living can be established in the relinquished/terminated grant's service area or area as determined by the SILC based on current county demographics.

In the case of a Part B grant being relinquished or terminated, the SILC in conjunction with the DSE shall conduct a competition so that a new Center for Independent Living can be established in the relinquished/terminated grant's service area or area as determined by the SILC based on current county demographics.

Sustainability of Infrastructure:

To ensure the sustainability of the IL network, the SILC and DSE shall conduct on-sight quarterly monitoring of any 501c3 entity that operates more than 25% of the entire IL network funded by Part B and SILC allocated state funds. This requirement has been put in place to ensure the statewide network does not collapse due to potential issues with any one 501c3 entity.

Effective January 2018, it is the expectation of the SILC that any CIL receiving federal or state funding shall demonstrate additional funding sources to support the CIL. Allocations from SILC should not be the sole source of income for a Center.

3.3 Section 723 States Only

3.3A If the State follows an order of priorities for allocating funds among centers within a State that is different from what is outlined in 34 CFR 366.22, describe the alternate order of priority that the DSU director and the SILC chair have agreed upon. Indicate N/A if not applicable.

N/A

3.3B Describe how the State policies, practices and procedures governing the awarding of grants to centers and the oversight of these centers are consistent with 34 CFR 366.37 and 366.38.

The DSE provides a telephone line, meeting rooms and yearly training to CIL staff and the SILC membership. Other in-kind resources are offered to CILs depending upon need and availability.

4.1B Describe other DSU arrangements for the administration of the IL program, if any.

Part II: Narrative: Section 5 - Statewide Independent Living Council (SILC)

5.1 Resource plan

5.1A Describe the resource plan prepared by the SILC in conjunction with the DSU for the provision of resources, including staff and personnel, made available under parts B and C of chapter 1 of title VII, section 101(a)(18) of the Act, and from other public and private sources that may be necessary to carry out the functions of the SILC identified in section 705(c). For more information click the icon.

The SILC, in conjunction with the DSE, developed a resource plan for the provision of resources (including staff and personnel) made available through innovation and expansion funds, and from other sources. The resource plan addresses the three years of this SPIL.

The funds are used to cover all expenses associated with SILC activities and meetings necessary to carry out the functions of the SILC during the SPIL. These expenses include: reimbursements for SILC member travel; attendant/child care expenses; an honoraria/lost wages up to \$100 for six times during one year; and the salary and fringe benefits of a part-time SILC coordinator. The current resource plan allocates \$65,000 to fund SILC activities from I and E funds. The plan also includes an additional \$40,000 in SGF from DAIL to assist the SILC in funding the SILC Conference and additional innovations.

5.1B Describe how the following SILC resource plan requirements will be addressed.

- The SILC's responsibility for the proper expenditure of funds and use of resources that it receives under the resource plan.

The SILC reviews the resource plan at each quarterly meeting. The SILC follows the state travel regulations in regards to member reimbursement. The SILC has the responsibility of maintaining their expenditures under the Innovation and Expansion funds, as appropriate by Federal and State law.

- Non-inclusion of conditions or requirements in the SILC resource plan that may compromise the independence of the SILC.

No conditions or requirements are included in the Resource Plan that will compromise the independence of the SILC.

While assisting the SILC in carrying out its duties under the SPIL, staff and other personnel assigned to the SILC under the Resource Plan will not be assigned that would create a conflict of interest.

- Reliance, to the maximum extent possible, on the use of resources in existence during the period of implementation of the State plan.

The SILC will work with the DSE and other applicable agencies and organizations to ensure other resources are utilized prior to, or in the enhancement of, IL funds and DSE funds.

5.2 Establishment and Placement

Describe how the establishment and placement of the SILC ensures its independence with respect to the DSU and all other State agencies. Refer to the SPIL Instructions for more information about completing this section.

The KY SILC is not established as an entity within any State agency, including the DSE, and is independent of the DSE and all other State agencies. The KY SILC was created by Executive Order of the Governor and affirmed by the 1994 General Assembly. It is now attached to the Department for Aging and Independent Living for fiscal purposes only. The KY SILC operates as a separate entity.

5.3 Appointment and Composition

Describe the process used by the State to appoint members to the SILC who meet the composition requirements in section 705(b). Refer to the SPIL Instructions for more information about completing this section.

The Nominating Committee of the KY SILC reviews annually the membership of the Council and terms of the members. Unrepresented and underrepresented groups are identified. The Nominating Committee solicits recommendation for membership from: Centers for Independent Living, Council members, and other disability agencies or groups, the names of individuals to potentially serve on the Council. The individual is contacted and invited to fill out the Boards and Commissions Form, the SILC questionnaire and submit a resume to the Committee. The Committee meets and reviews all of the documents and determines the appropriate composition requirement for the individual to serve. The Nominating Committee reviews each candidate based on a set of criteria in regards to gaps in the membership; geographic, ethnic, gender, disability representation, etc.; and also inquires about the knowledge of the candidate in regards to the IL philosophy and Kentucky IL network prior to making a recommendation to the full SILC for nomination. The Committee brings their nominations to the full SILC for their vote. If approved by the SILC, staff drafts the necessary letter and submits all documents to the Governor's Office, Boards and Commissions. Pending approval by the Governor's Office, an Executive Order is issued.

The SILC supervises the part-time SILC Coordinator and directs her activities. The SILC Chairperson maintains regular contact with the DSE about the satisfaction of the SILC with the SILC Coordinator. DSE employees that perform supporting functions for SILC activities are supervised and evaluated within the consistency of state law.

- Non-assignment of duties to SILC staff and other personnel made available by the DSU, or any other State agency or office, that would create a conflict of interest while assisting the SILC in carrying out its duties.

No additional assignments are made to DSE staff that would create a conflict of interest with the SILC staff.
