1.2 Objectives

1.2B Describe the steps planned regarding outreach to populations in the State that are unserved or underserved by programs under title VII, including minority groups and urban and rural populations.

- Identify the populations to be designated for targeted outreach efforts

The IL Network has identified and continues to address outreach to underserved populations. These include; minority groups, urban and rural populations, people living in nursing homes, youth, seniors, and other groups identified by specific Center. Each of Utah's six CILs has established programs to outreach to underserved populations and areas. The six CILs are responsible for serving specific areas of the State leaving no area of the State unserved. CILs report that in their area there is still a significant number of individuals with disabilities who are underserved. This is primarily due to the lack of resources, including transportation, funding and staff time. The IL Network will continue to identify underserved populations. In fact, census data estimates show that CILs are only serving as little as two percent of individuals with significant disabilities residing in Utah.

- Identify the geographic areas (i.e., communities) in which the targeted populations reside

Eighty percent of Utah's population is located along the Wasatch Front which comprises 14% of the geographic area. This area is served by three Centers, located in Ogden, Salt Lake City and Provo. The remaining geographic area (86%) is served by three rural Centers located in Logan, Price and St. George. The Utah IL Network will review census data for each service area and will prioritize and advocate for the resources necessary to implement outreach strategies to better serve identified populations and areas. Centers will prioritize local outreach efforts.

- Describe how the needs of individuals with significant disabilities from minority group backgrounds will be addressed

The Centers will demonstrate continued services to minority and underserved populations as evidenced on the 704 report.

1.3B Financial Plan Narratives

1.3B(1) Specify how the part B, part C and chapter 2 (Older Blind) funds, if applicable, will further the SPIL objectives.

Utah has developed a coordinated plan to meet the needs of IL consumers and comply with Federal requirements. All of federal Part B funds in the amount of \$ 305,350 is divided among the six CIL's using an agreed upon formula to provide IL services through contracts with USOR. Innovation and Expansion (Sec. 110 I&E) funds of \$102,470, and state funds of \$72,096 are contracted to USILC to fulfill its statutory duties and SPIL activities. State funds of \$3,092,722 go to the six centers. Part C funds of \$835,794 are used by the six CIL's for general CIL operations.

1.3B(2) Describe efforts to coordinate Federal and State funding for centers and IL services, including the amounts, sources and purposes of the funding to be coordinated.

Federal funding used to provide IL services and support CIL operations consists of \$305,350 of Part B funding, contracted through USOR as pass-through. Part C funding consists of \$835,794 contracted through ACL, directly to the Centers to support general operations and services. Innovation and Expansion (Sec. 110 I&E) funds of \$102,470 are contracted as pass-through to USILC. Contracts with USOR are monitored by the USOR Specialized Services Program. The USOR Specialized Services Program Coordinator provides support and direction as required. Fiscal services and support are provided by the Utah State Office of Rehabilitation and/or Department of Workforce Services fiscal unit.

1.3B(3) Describe any in-kind resources including plant, equipment or services to be provided in support of the SILC resource plan, IL services, general CIL operations and/or other SPIL objectives.

USOR will provide access to technical support in areas identified in the SPIL.

USOR will administer and monitor fiscal and program compliance of CIL grants awarded with Federal and State IL funds.

1.3B(4) Provide any additional information about the financial plan, as appropriate.

As required under Title VII, Section 364.4(b)(i) of the Rehabilitation Act, USILC, CILs and USOR have developed and approved for inclusion in the Utah SPIL a resource plan for the provision of resources, including staff and personnel necessary to carry out the functions of the SILC.

The method or process by which this plan was developed includes community input from six focus groups, negotiations between USILC, CILs and USOR, review and approval by USILC and the fiscal sub-committee, review and approval by the Utah State Board of Education, and the Department of Workforce Services for the administration of the Vocational Rehabilitation and Independent Living programs.

1.4 Compatibility with Chapter 1 of Title VII and the CIL Work Plans

1.4A Describe how the SPIL objectives are consistent with and further the purpose of chapter 1 of title VII of the Act as stated in section 701 of the Act and 34 CFR 364.2.

The IL Network is authorized by chapter 1 of title VII of the Act to promote a philosophy of independent living (IL) including a philosophy of consumer control, peer support, self-help, self-determination, equal access, and individual and system advocacy, to maximize the leadership, empowerment, independence, and productivity of individuals with significant disabilities, and to promote and maximize the integration and full inclusion of individuals with significant disabilities into society.

The objectives of this SPIL are based on the IL philosophy and CIL work plans to further the delivery of services to enhance the independence of people with disabilities. The SPIL specifically outlines objectives to assist individuals with significant disabilities to become more independent and integrated into their communities by providing: peer support, independent living skills training, information and referral, advocacy, and transition in three parts including; nursing

home transition, nursing home diversion and youth transition. The IL Network will continue to collaborate with and educate local and state organizations to encourage inclusive public policy. Members of the IL Network will work with organizations to provide information, reflective of the supports needed by individuals with disabilities.

1.4B Describe how, in developing the SPIL objectives, the DSU and the SILC considered and incorporated, where appropriate, the priorities and objectives established by centers for independent living under section 725(c)(4) of the Act.

Priorities were identified for the SPIL by conducting public focus groups with consumers, members of the IL Network and community at large at each of the Independent Living Centers. These focus groups were facilitated by the SILC. A summary of identified priorities was compiled. These priorities are incorporated in the SPIL objectives.

1.5 Cooperation, Coordination, and Working Relationships Among Various Entities

Describe the steps that will be taken to maximize the cooperation, coordination and working relationships among the SILS program, the SILC, and centers; the DSU, other State agencies represented on the SILC and other councils that address the needs of specific disability populations and issues; and other public and private entities determined to be appropriate by the SILC.

The description must identify the entities with which the DSU and the SILC will cooperate and coordinate.

Services to IL consumers within the IL Network are provided only by CIL's in Utah through contract with USOR. The six CIL Executive Directors work together as members of the Association of Independent Living in Utah (AILU). Representatives from USOR and USILC regularly attend the AILU meetings. USILC's Chair is an appointed member of the State Rehabilitation Council; a joint meeting of the two councils is generally held once a year.

Members of the IL Network frequently attend and/or serve on disability related councils and Boards. Some examples are: Division of Services for the Deaf and Hard of Hearing, Division of Services for the Blind and Visually Impaired, Utah Developmental Disabilities Council, Utah Assistive Technology Program, Legislative Coalition for People with Disabilities, Utah Housing Coalition, local Transportation Coordinating Councils and other relevant organizations. Collaboration promotes expansion of relationships and connections to decision-makers who can eliminate barriers to independent living, leverages funding and decreases the possibility of duplicated services.

The USOR Director or designee serves as a member of the Coordinating Council for People with Disabilities (CCPD). This legislatively mandated Council consists of the directors of Utah's major disability agencies and organizations and has the ability to implement policy change. The CCPD identifies policies and services of individual agencies and organizations that impact the lives of people with disabilities.

1.6 Coordination of Services

Describe how IL services funded under chapter 1 of title VII of the Act will be coordinated with and complement other services to avoid unnecessary duplication with other Federal, State, and local programs, including the OIB program authorized by chapter 2 of title VII of the Act, that provide IL- or VR-related services.

The IL Network will provide the specific services outlined in the Act as well as Assistive Technology services and a variety of IL services and programs designed to meet local needs. In addition, CIL staffs are members of numerous regional and local committees and boards with the goal of representing IL and ensuring that resources are not wasted on duplication of services.

1.7 Independent Living Services for Individuals who are Older Blind

Describe how the DSU seeks to incorporate into, and describe in, the State plan any new methods or approaches for the provision of IL services to older individuals who are blind that are developed under the Older Individuals who are Blind program and that the DSU determines to be effective.

Under the direction of USOR, the Division of Services for the Blind and Visually Impaired (DSBVI) administers the Older Blind program for individuals 55 and over. Three of the CILs serve substantial rural areas and have Older Blind Specialists that work with DSBVI in providing services for individuals who are blind or visually impaired.

2.1B Describe any service provision priorities, including types of services or populations, established for meeting the SPIL objectives identified in section 1.2.

The six CILs will provide, at a minimum, the five basic core services required by Title VII, Chapter 1, Part C of the Rehabilitation Act as amended by Workforce Innovation and Opportunity Act. Utah CILs will provide services in a manner consistent with the local community needs. Services to achieve individual independent living goals are:

Information and referral: All six CILs have well established programs to provide information and referral to individuals requesting such for disability issues and services. These services include local, statewide, and national information.

Peer Support: CILs have programs where staff, volunteers, or others with disabilities serve as role models to consumers based on their individual needs.

Skills Training: Each CIL has programs to provide the training needed for individual consumers to achieve or increase their level of independence.

Individual and Systems Advocacy: In addition to community and state level advocacy, all CILs provide individual advocacy programs to meet their consumer's needs.

Transition: CILs provide services that facilitate transition from nursing homes and other institutions to the community, provide assistance to those at risk of entering institutions, and facilitate transition of youth to postsecondary life.

Additional Services:

Assistive Technology: Each Center provides assistive technology services that include evaluation, acquiring or loaning equipment, and training and follow up services. Level and scope of AT services provided in each Center depends upon availability of community based services and state funding.

These services will be measured through outcomes identified in the contract between the DSE and the CILs and as documented in the 704 on an annual basis.

2.1C If the State allows service providers to charge consumers for the cost of services or to consider the ability of individual consumers to pay for the cost of IL services, specify the types of IL services for which costs may be charged and for which a financial need test may be applied, and describe how the State will ensure that:

- Any consideration of financial need is applied uniformly so that all individuals who are eligible for IL services are treated equally; and
- Written policies and consumer documentation required by 34 CFR 364.59(d) will be kept by the service provider.

Indicate N/A if not applicable.

2.2 Arrangements for State-Provided Services

2.2A If the DSU will provide any of the IL services identified in section 2.1A through grants or contractual arrangements with third parties, describe such arrangements.

As described above, USOR contracts all (see 1.3A Financial Plan Tables) of Federal Part B funds to the six CILs for the provision of direct services. Contracts are developed and monitored by standards required by the Utah Division of Purchasing, Utah Department of Workforce Services and the Standards and Assurances outlined in the Act.

2.2B If the State contracts with or awards a grant to a center for the general operation of the center, describe how the State will ensure that the determination of an individual's eligibility for services from that center shall be delegated to the center.

The State contracts with each of the Centers. Contracts are amended annually to meet State and Federal requirements. Eligibility is determined by the Centers. Contracts and CSR?s are reviewed in the monitoring process.

Part II: Narrative: Section 3 - Design for the Statewide Network of Centers

3.1 Existing Network

Provide an overview of the existing network of centers, including non-Part C-funded centers that comply with the standards and assurances in section 725 (b) and (c) of the Act, and the geographic areas and populations currently served by the centers.

The statewide network of CIL?s comply with the standards and assurances set forth in section 725 (b) and (c) of the Act. The following shows the geographic areas by county and the population currently served by each of the six centers:

Total population for these counties = 255,542*

population served by each Center according to estimates from 2014 U.S. Census Bureau

3.2 Expansion of Network

Describe the design for the further expansion of the network, including identification of the unserved and underserved areas in the State and the order of priority for serving these areas as additional funding becomes available (beyond the required cost-of-living increase).

The six Centers divide the entire state into six regional areas. The plan for further expansion of the network, is to build on the existing CILs through branch office or satellite creation versus development of a new CIL. All of the state's 29 counties are included in the service area of the six CILs. This does not mean that all individuals needing IL services receive them. The Network does not have sufficient resources to meet the extensive needs.

The IL Network continues to address outreach to underserved populations. These include; minority groups, urban and rural populations, people living in nursing homes, youth, seniors, and other groups identified by specific Center. Each of CILs has established programs to outreach to underserved populations and areas.

The policy of the IL Network is to work to increase the capacity of the Centers to provide outreach to the underserved populations in their regions. Any increases and or decreases in funding is based on an established formula (adopted 1998). The funding formula is as follows.

Funding Formula: 50% evenly distributed + 30% State population + 20% geographic area, unless otherwise agreed upon by the IL Network.

If funding were lost from relinquishment or termination of a Part C grant, CILs resources and regions would be evaluated, and when needed redistribute service areas amongst the existing network, while looking to transfer grants to the CIL?s acquiring the additional service area. This would create a negative impact on all consumers, both of the old and new service areas. Combining additional consumers and existing consumers within multiple service areas would result in less services being provided overall, creating additional underserved populations.

This SPIL does not designate specific geographic regions of the state as underserved but rather focuses on underserved populations.

3.3 Section 723 States Only

3.3A If the State follows an order of priorities for allocating funds among centers within a State that is different from what is outlined in 34 CFR 366.22, describe the alternate order of priority that the DSU director and the SILC chair have agreed upon. Indicate N/A if not applicable.

N/A

3.3B Describe how the State policies, practices and procedures governing the awarding of grants to centers and the oversight of these centers are consistent with 34 CFR 366.37 and 366.38.

Part II: Narrative: Section 4 - Designated State Unit (DSU)

4.1 Administrative Support Services

4.1A Describe the administrative support services to be provided by the DSU for the SILS (Part B) program and, if the State is a Section 723 State, for the CIL (Part C) program. Refer to the SPIL Instructions for additional information about administrative support services.

USOR is the Designated State Unit (DSU) for the purposes of this SPIL. The mission of the USOR is to assist individuals with disabilities to obtain employment and increase their independence. To be successful with this mission, the independent living needs of people with disabilities must also be supported. USOR's responsibilities under the SPIL shall include the following:

- (1) USOR will act in partnership with the USILC and CIL's to promote IL philosophy and support advocacy activities to develop, enhance and support a successful network of CIL's.
- (2) USOR will provide guidance to CIL's for training to all staff on independent living philosophy and services.
- (3) USOR will provide access to technical support in areas identified in the SPIL.
- (4) USOR will contract funding for the operations of the State Independent Living Council.
- (5) USOR will administer and monitor fiscal and program compliance of CIL grants awarded with Federal and State IL funds.

4.1B Describe other DSU arrangements for the administration of the IL program, if any.

Under the direction of USOR, the Division of Services for the Blind and Visually Impaired (DSBVI) administers the Older Blind program for individuals 55 and over. Three of the CILs serve substantial rural areas and have Older Blind Specialists that work with DSBVI in providing services for individuals who are blind or visually impaired.

Part II: Narrative: Section 5 - Statewide Independent Living Council (SILC)

5.1 Resource plan

5.1A Describe the resource plan prepared by the SILC in conjunction with the DSU for the provision of resources, including staff and personnel, made available under parts B and C of chapter 1 of title VII, section 101(a)(18) of the Act, and from other public and private sources that may be necessary to carry out the functions of the SILC identified in section 705(c). The description must address the three years of this SPIL.

- Refer to the SPIL Instructions for more information about completing this section.

For more information click the icon.

USILC is funded by Federal Innovation and Expansion funds of \$82,655 and \$67,918 in state funds contracted through USOR to meet SPIL requirements. Federal Part B funds are divided between the six CIL?s to provide IL service through contracts with USOR.

5.1B Describe how the following SILC resource plan requirements will be addressed.

- The SILC's responsibility for the proper expenditure of funds and use of resources that it receives under the resource plan.

Policies and procedures are in place for expenditure of funds and use of resources. Fiscal oversight and compliance reviews are conducted annually by DSE. Financial Statements with Independent Accountant's Compilation Report and Additional Information is conducted annually by an external auditor.

- Non-inclusion of conditions or requirements in the SILC resource plan that may compromise the independence of the SILC.

There are no conditions or requirements included in the resource plan or the DSE contract with SILC that compromise the independence of the SILC. The SILC is a 501(c)(3) non-profit organization that is operated by the Council and not the DSE.

- Reliance, to the maximum extent possible, on the use of resources in existence during the period of implementation of the State plan.

Under contract with DSE, existing resources are identified to be used in the implementation and monitoring of the State Plan. The budget is approved and monitored by the Council.

5.2 Establishment and Placement

Describe how the establishment and placement of the SILC ensures its independence with respect to the DSU and all other State agencies. Refer to the SPIL Instructions for more information about completing this section.

USILC is a 501(c)(3) nonprofit. The placement of the SILC is not within the State's organizational structure and is located outside of State government.

5.3 Appointment and Composition

Describe the process used by the State to appoint members to the SILC who meet the composition requirements in section 705(b). Refer to the SPIL Instructions for more information about completing this section.

The process of appointing an individual to serve as a voting member to the USILC is as follows: The Council's Nomination/Membership Committee screens potential candidates and presents their recommendations for appointment to the Council for nomination consideration. The voting membership of the Council votes to approve or disapprove the candidates.

Approved candidates are then submitted to the Governor or Governor Appointee for consideration, those approved by the Governor or Appointee are appointed as members to the USILC.

The Chair of the Nomination/Membership Committee is responsible to ensure that the nomination process and membership requirements as stated in the Bylaws and Federal regulations are adhered to. This includes making certain that the membership consists of at least 51% individuals with disabilities and are not employed by a State agency or CIL; and that a majority of the voting membership are individuals with disabilities and not employed by any State agency or Center.

5.4 Staffing

Describe how the following SILC staffing requirements will be met.

- SILC supervision and evaluation, consistent with State law, of its staff and other personnel as may be necessary to carry out its functions.

In order to carry out the goals and objectives of the Council identified in the SPIL over each of the next three years, resources have been identified to fund the following positions.

(a) Public Policy Administrator: 1 FTE: This position is hired and evaluated annually by the Executive Committee and reports to the Council Chair. This position supervises the USILC Coordinator and oversees the activities identified in the SPIL. This position is responsible for overseeing all contracts and fiscal activities of the Council.

(b) USILC Coordinator: 1 FTE: This position reports to the Public Policy Administrator. The Coordinator is responsible for all programs, activities and fiscal responsibilities of the office. In

addition, the position is responsible for the functional operation of the Council including scheduling meetings, meeting preparations, and documentation.

- Non-assignment of duties to SILC staff and other personnel made available by the DSU, or any other State agency or office, that would create a conflict of interest while assisting the SILC in carrying out its duties.

None

Part II: Narrative: Section 6 - Service Provider Requirements

Describe how the following service provider requirements will be met:

6.1 Staffing

- Inclusion of personnel who are specialists in the development and provision of IL services and in the development and support of centers.

USOR contracts with each CIL in Utah for the provision of core and other independent living services. The majority of staff and individuals in decision-making positions are individuals with disabilities. This follows the Independent Living philosophy of consumer control wherein people with all types of disabilities directly govern and staff the organization. Hiring criteria is developed to outline skills and minimum qualifications required for specific positions.

CILs are governed by a board of directors consisting of a majority of people with disabilities. The Board members receive training and are knowledgeable about fiscal oversight, fundraising and development of the CIL.

- Availability, to the maximum extent feasible, of personnel able to communicate (1) with individuals with significant disabilities who rely on alternative modes of communication, such as manual communication, nonverbal communication devices, Braille, or audio tapes and (2) in the native languages of individuals with significant disabilities whose English proficiency is limited and who apply for or receive IL services under title VII of the Act.

Staff within the CILs are qualified to provide IL services to people with significant disabilities who rely on various modes of communication such as sign language. Materials are available in alternate formats such as Braille, large-print and electronic modes based up the needs of the individual. Whenever possible, staff are hired that speak prominent languages other than English. If this is not feasible or individuals have other language needs an interpreter will be used to meet those needs.

- Establishment and maintenance of a program of staff development for all classes of positions involved in providing IL services and, where appropriate, in administering the CIL program, improving the skills of staff directly responsible for the provision of IL services, including knowledge of and practice in the IL philosophy.

Individual performance plans are written annually that identify each staff member's training needs. Training may include conferences, classes, supervisory, and co-work/peer training. Based on the employee's job requirements, training topics may range from IL skills and philosophy training, administrative tasks, fiscal management, assistive technology, time management and increasing knowledge of community/disability services and support services.

- Affirmative action to employ and advance in employment qualified individuals with significant disabilities on the same terms and conditions required with respect to the employment of individuals with disabilities under section 503 of the Act.

USOR contracts require CILs to use sound organizational and personnel practices, including affirmative action, to employ and advance in employment, qualified individuals with significant disabilities. Each CIL has developed affirmative action policies and practices.

6.2 Fiscal Control and Fund Accounting

- Adoption of those fiscal control and fund accounting procedures as may be necessary to ensure the proper disbursement of and accounting for funds made available through parts B and C of chapter 1 of title VII of the Act, in addition to complying with applicable EDGAR fiscal and accounting requirements.

USOR contracts require that CILs practice sound fiscal management and that they comply with EDGAR fiscal and accounting requirements. CILs must maintain for the purposes of this contract an accounting system of procedures and practices that conforms to Generally Accepted Accounting Principles (GAAP), as interpreted by USOR, and to any other accounting requirements USOR may require.

Annual audits must be completed according to audit requirements established in the Office of Management and Budget (OMB) Part 200 of the Uniform Administrative Requirements, and provide that report to USOR. The annual financial report must include, at a minimum, a statement of revenues and expenditures and a copy of any applicable audit reports. CILs must provide, or allow inspection of, financial source documentation including journal entries and other relevant financial documentation to, or by, USOR designated staff. The annual financial audit must be conducted according to audit requirements established in the Statement on Auditing Standards (SAS) No. 99, Management Antifraud Programs and Controls. CILs must implement all USOR audit recommendations.

6.3 Recordkeeping, Access and Reporting

- Maintenance of records that fully disclose and document the information listed in 34 CFR 364.35.

The USOR acting as the DSE has a contract with each individual CIL and the SILC. As part of the contract, the CILs and the SILC are obligated to comply with applicable EDGAR fiscal and accounting requirements and records that fully disclose and document the requirements outlined in 34 CFR 364.35. In addition, the CILs and the SILC are required to submit all reports the Secretary determines to be appropriate. All records outlined in 34 CFR 364.37 are also required to be made accessible to the Secretary and Comptroller General or their duly authorized representatives for review. The Utah State Office of Rehabilitation monitors these contracts to assure compliance with these regulations through annual and semi-annual reports, audits and reviews.

- Submission of annual performance and financial reports, and any other reports that the Secretary determines to be appropriate

As described in 6.2 above, a fiscal audit is completed annually with each CIL. Any recommendations regarding improvements in record-keeping are implemented. Submission of annual performance and financial reports, and any other reports that the Secretary determines to be appropriate USOR contracts require annual mid-year progress reports from each CIL. The 704 report is submitted to USOR for review. As reported in 6.1 and 6.2 above, financial reports are submitted annually.

USOR contracts with the CILs require that the contractor provide services to individuals with a range of significant disabilities. The CILs operate under policies and procedures that outline eligibility requirements for services that meet the definition defined in 34 CFR 364.4(b). USOR conducts periodic trainings on these policies and procedures including eligibility requirements. USOR also periodically conducts CSR reviews to ensure compliance with the established policies and procedures including eligibility requirements.

- Ability of any individual to seek information about IL services under these programs and to request referral to other services and programs for individuals with significant disabilities.

Each CIL is under contract with USOR to provide access to any individual seeking information about IL services and provide appropriate response to requests for referral to other services and programs for individuals with significant disabilities. Training is conducted to ensure appropriate staff members have the skills required to make appropriate referrals and to disseminate information regarding other services and programs for individuals with significant disabilities to any individual. USOR monitors the provision of these services through mid-year reports and the year end 704 report.

- Determination of an individual's eligibility for IL services under the SILS and CIL programs in a manner that meets the requirements of 34 CFR 364.51.

CSRs are periodically reviewed by CIL Executive Directors and USOR to establish the CILs compliance with USOR contracts and the established policies and procedures.

- Application of eligibility requirements without regard to age, color, creed, gender, national origin, race, religion, or type of significant disability of the individual applying for IL services.

Clear policies and procedures are established by the CILs and monitored and periodically reviewed by USOR to make sure eligibility consideration is given to all individuals with significant disabilities in compliance with 34 CFR 364.41(a) and to apply eligibility requirements without regard to age, color, creed, gender, national origin, race, religion, or type of disability. Training is periodically conducted to enhance the abilities and skills of appropriate CIL staff on all aspects of eligibility requirements outlined in the regulations.

- Non-exclusion from receiving IL services of any individual who is present in the State and who is otherwise eligible for IL services, based on the imposition of any State or local residence requirement.

Clear policies and procedures are established by the CILs and monitored with periodic reviews by USOR to ensure residency requirements for all individuals with significant disabilities are in compliance with 34 CFR 364.41(b) and include the assurance that IL services must be made available to any eligible individual who is present in the state, without the imposition of any state or local residency requirement. Training is periodically conducted to enhance the abilities and skills of appropriate CIL staff on all aspects of eligibility requirements outlined in the regulations.

6.5 Independent Living Plans

- Provision of IL services in accordance with an IL plan complying with Sec. 364.52 and mutually agreed upon by the individuals with significant disabilities and the appropriate service provider staff unless the individual signs a waiver stating that an IL plan is unnecessary.

Unless the consumer signs a waiver, IL plans are developed with all consumers in compliance with CFR 364.52. Training is conducted on IL plan development and plans are reviewed by Center supervisory staff and randomly reviewed by USOR.

6.6 Client Assistance Program (CAP) Information

- Use of accessible formats to notify individuals seeking or receiving IL services under chapter 1 of title VII about the availability of the CAP program, the purposes of the services provided under the CAP, and how to contact the CAP.

Consumers are notified about the availability of the Client Assistant Program (CAP), the purposes of the services provided under the CAP, and how to contact the CAP. Accessible formats to inform consumers about the CAP are provided to those consumers who need or request them.

6.7 Protection, Use and Release of Personal Information

- Adoption and implementation of policies and procedures meeting the requirements of 34 CFR 364.56(a), to safeguard the confidentiality of all personal information, including photographs and lists of names.

CILs have adopted and implemented policies and procedures to safeguard the confidentiality of all personal information according to CFR requirements. Staff and board members are expected to maintain complete confidentiality concerning the identification of consumers, information about consumers and consumer's business with the CILs in all situations. Lists of consumer names and their photographs are also protected.
