North Carolina Center for Health & Wellness at the University of North Carolina at Asheville
Chronic Disease Self-Management Education Program Grantee

Goals, Strategies, and Activities
The overall purposes of this 3-year Sustainable Systems grant are to:

- **Goal 1:** Significantly increase the number of older adults and adults with disabilities who participate in and complete evidence-based chronic disease self-management education (CDSME) and support programs to improve their confidence in managing their chronic condition(s).
- **Goal 2:** Implement new and innovative funding arrangements, including contracts and collaborations with multiple sustainability partners, to support evidence-based self-management education and support programs during and beyond the grant period. Additionally, embed programs into an integrated, sustainable evidence-based prevention program network via centralized, coordinated processes.

- Expand the NCCHW Healthy Aging NC (HANC) Resource Center network to 13 of NC’s 16 area agencies on aging (AAAs);
- Support eight AAAs in NC in establishing Diabetes Self-Management Education and Support and secure accreditation among at least five AAAs;
- Secure Medicare reimbursement for at least two AAAs; and
- Formalize the relationship between the NCCHW and the North Carolina Division of Aging and Adult Services through a memorandum of agreement.

Proposed Interventions
- Chronic Disease Self-Management Program (CDSMP)
- Diabetes Self-Management Program (DSMP)
- Chronic Pain Self-Management Program (CPSMP)

Partnerships
To achieve the goals of the grant, NCCHW will collaborate with the following key partners:

- North Carolina Division of Aging and Adult Services
Anticipated Results
The NCCHW and its partners propose to achieve the following results:

- Engage 2450 older adults and adults with disabilities in CDSME programs, 1798 of whom will be completers;
- Train 20 CDSMP Master Trainers and 15 DSMP Master Trainers;
- Create at least one new reimbursement pathway for CDSME programs;
- Create a portfolio of community-based diabetes continuum of care tools; and
- Submit six funding proposals to support HANC programming.
